

Bounty Hunter Instructions:

Bounty Hunter is an interactive fantasy in which you play the role of a character in an unknown environment. Through the computer, you control your character and try to solve the mystery with plain english statements like "OPEN THE DOOR" or "GET THE KEY."

The computer considers the first word the verb and the last word the noun. It also only looks at the first two letters of each word. Therefore, "OP DO" means the same as "OPEN THE DOOR."

Enter "IN" (for "inventory") to see what you are carrying. **Look at individual items for further clues.**

In Bounty Hunter, you will never get into a "dead end" situation; there is always a way out.

When you refer to an item, use its first name only. For instance, if you wanted to arrest Jessie Oil, you would enter "arrest jessie." Entering "arrest jessie oil" or "arrest oil" **WILL NOT WORK.**

When you are asked for more information, the computer is looking for a one word answer. In response to "put the key" the computer might ask "where should I put the key?" You should enter "lock," not "in the lock."

Below is a list of verbs that you can use. The discovery of all the nouns is left up to you; that's part of the fun!

ARREST	BURN	CHEAT	CLIMB	DROP	GET
GIVE	GO	HIT	INSERT	INVENTORY	LASSO
LIGHT	LOOK	OPEN	PLAY	POST	PUT
SHOOT	SWIM	UNLOCK
